Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Fink et al. (U. S. Patent 5,370,692).

Fink disclose all the claimed invention of a method of producing a template for use in pre-contouring bone reconstruction plate, including

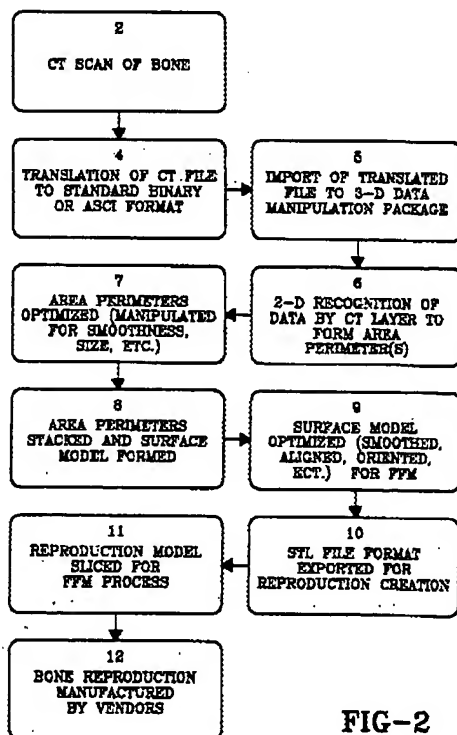

FIG-2

receiving medical image data 2, performing 3-D surface reconstruction 5, creating a representation of a template 10, outputting a replica of the template by Freeform Fabrication manufacturing 11, except positively performing virtual removal of a bone. It is old and notoriously well known in the manufacturing art to virtual remove the main body part for precisely designing the support part, which supports the main body (like in auto, housing and space industries).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Luhr et al., Schumacher et al., Pollock, and Cawley et al. disclose related art.
